International Environmental Scientists Award

CALL FOR PROFILE – Environmental Scientists Award

About Awards: Environmental Scientists takes the privilege to awarding the Industries, Academicians, Researchers, Doctors, Scientist, and Regulators from Science, Health and Engineering fields across the globe to its International Events. The International Environmental Scientists Award is an annual gathering.

This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

Objectives: The Environmental Scientists Award is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Events speakers.

Key Features and: Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees listed on website.

Award Categories: Young Scientist Award | Best Researcher Award | Outstanding Scientist Award | Lifetime achievement Award | Women Researcher Award | Best Faculty Award | Best Scholar Award | Organization Awards: Excellence in Innovation | Excellence in Research | Excellence Award | Best Paper Award | Most Cited Article Award

Topics of Award Subjects include, but are not limited to: Biology and life sciences | chemistry and materials sciences | environmental science | medicine and health science | computer science and artificial intelligence | statistics and probability | social sciences | engineering and technology | clinical and neuroscience | communication and outreach | Robotics and automation | energy and sustainability | astronomy and astrophysics | genetics and genomics | environmental nanotechnology | Quantum Science | Ecology and Conservation | Artificial Neural Networks | Cognitive Science | Synthetic biotechnology | Data Science and Analytics | Humanities and Science Integration | Oceanography and Marine Biology | Renewable Energy Technologies | Cosmology and Physics | Molecular Biology | Educational Innovation in Science | Advanced Materials Engineering | Social Impact of Scientific Discoveries | Mathematical Modeling in Ecology | Agricultural Science and Innovation | Cyber security and Cryptography | Space Exploration Technologies | Human-Computer Interaction | Applied Psychology in Science | Social Robotics | Chemical Ecology | Evolutionary Biology | Planetary Science |
